

Academic Record

PhD at Microbial Ecology, Lund University 2009-present

Master in Philosophy in Biotechnology 2008

Master in Science in Microbiology 2007

Master thesis

Production and characterization of carbonic anhydrase of *Sporotrichum thermophile* Apinis at University of Delhi, India

Mapping of Quantitative Trait Loci (QTLs) for seed weight in chickpea (*Cicer arietinum* L.) at National Chemical Laboratory, India

Conferences

9th International Mycological Congress IMC9, Edinburgh UK (2010)

- Poster presentation "Characterization of the fungal proteases secreted by the ECM fungi *Paxillus involutus* growing on organic nitrogen sources"

3rd Global Meet on Parasitic Diseases, Bangalore, India (2004)

5th Annual Meet of Indian Academy of Allergy, Pune, India (2002)

Workshops and courses

Workshop on Constraints on organic matter decomposition- from molecules to models at Uppsala University (SLU), Sweden

Introductory course for PhD at Ecology Building, LU

PhD course in Molecular Ecology and Evolution at Ecology Building, LU

SCIBLU courses on Protein identification by Mass Spectrometry and Analysis, BMC, LU

Teaching

Terrestrial Ecology practical course for Undergraduates studies on the topic "Enzymes", 10th -20th May, 2010, Ecology Building, Lund University

Research School

GENECO- The Graduate Research School in genomic ecology, Lund University

Scholarship

Erasmus Mundus Lot 15 India 2009
